

# PROJECT REPORT

## INTRODUCTION;

### OVER VIEW

**EMPATHY MAP [NATURE], BRAINSTROMING [NATURE] AND DESIGN A LOGO WITH CANVA [NATURE FERTILIZER].**

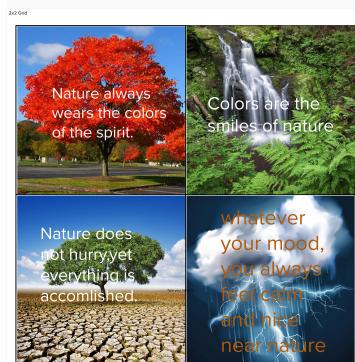

### PURPOSE

*TO Protect our life from nature disasters, So do not disturb nature it causes big problem for our future.*

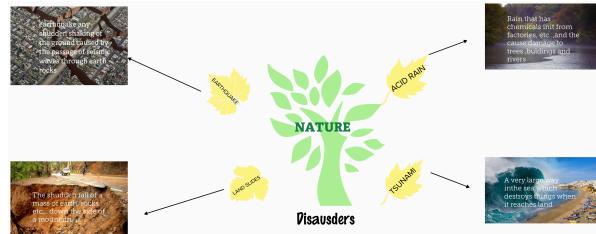

### problem definition and design thinking;

#### Empathy map[nature]

NATURE

#### Brainstroming map[nature]

## RESULT;

Design a logo with canva[NATURE FERTILIZER]

### ADVANTAGE AND DISADVANTAGE;

- This designs are used for awareness to nature disasters and our future life that is the advantages of my design.
- Some body aware my design or ignore my design and that matter was said many peoples but no one take about that matter. that is my design disadvantage.

### APPLICATION;

My team design only use for awareness from nature disaster and do not use organic fertilizer it causes decrease soil quality and that foods like slow motion it affect our life, it causes many diseases like skin problems and cancer and etc.....,

### CONCLUSION

I learned many things about this Naan Mudhalvan project, I learned how to use it in Mural app and Canva app that scheme is very useful to all. We learned many things from it, thank you! for this scheme by our CM M.K.Stalin.
